

THE WORLD LEADER IN ODOR CONTROL

**FOR
25+
YEARS**

NCM Odor & Dust Control is the world leader in the manufacturing and servicing of odor neutralizer products and high pressure atomizing systems. Founded more than 25 years ago, NCM Odor Control's custom products and systems now aid in odor and dust control for:

- **LANDFILLS**
- **TRANSFER STATIONS**
- **REMEDATION SITES**
- **COMPOST FACILITIES**

Manufactured in our own state-of-the art ISO-9001 certified plant, our water-based neutralizers are safe for workers, equipment and the environment.

WHY NCM?

► SUPERIOR PRODUCTS & TECHNOLOGY

- Vast line of products function over a range of pH, temperature and malodor conditions.
- Scientific R&D has led to a multi-dimensional approach that is customized to your specific needs.
- Cutting-edge computer technology puts NCM on the cutting edge for systems controls.

► UNRIVALED SERVICE & SUPPORT

- Highly-trained field technicians provide installation, repair and preventive maintenance to our systems and to others.
- Knowledgeable technical support staff is equipped to provide solutions for today's – and tomorrow's – regulatory issues.
- Cost-effective servicing procedures ensure maximum effectiveness and cost efficiency.

► TOP-NOTCH QUALITY & SAFETY

- Custom designed and fabricated high pressure atomizing broadcasting systems.
- Highest quality products on the market – that are also safe for workers, the community and the environment.
- Only company that offers current toxicology reports on our products.

► QUICK DELIVERY & LOW COSTS

- Dedicated sales team is interested in long-term relationships by regularly visiting your site and reassessing the current situation.
- Delivering installations on or before deadlines.
- Saving you time and money because we manufacture our own products, eliminating the middle man.
